

# Reach

**With over 70 sites across the UK**  
we're easy to reach,  
and if you can't get to us,  
we'll come to you.

We are committed to increasing the amount people recycle. For that to happen, we need to make it easy, which we do by being reachable, and responsive.

Just drop your waste metal at your nearest EMR site, or arrange for us to collect it, and we'll take it from there.

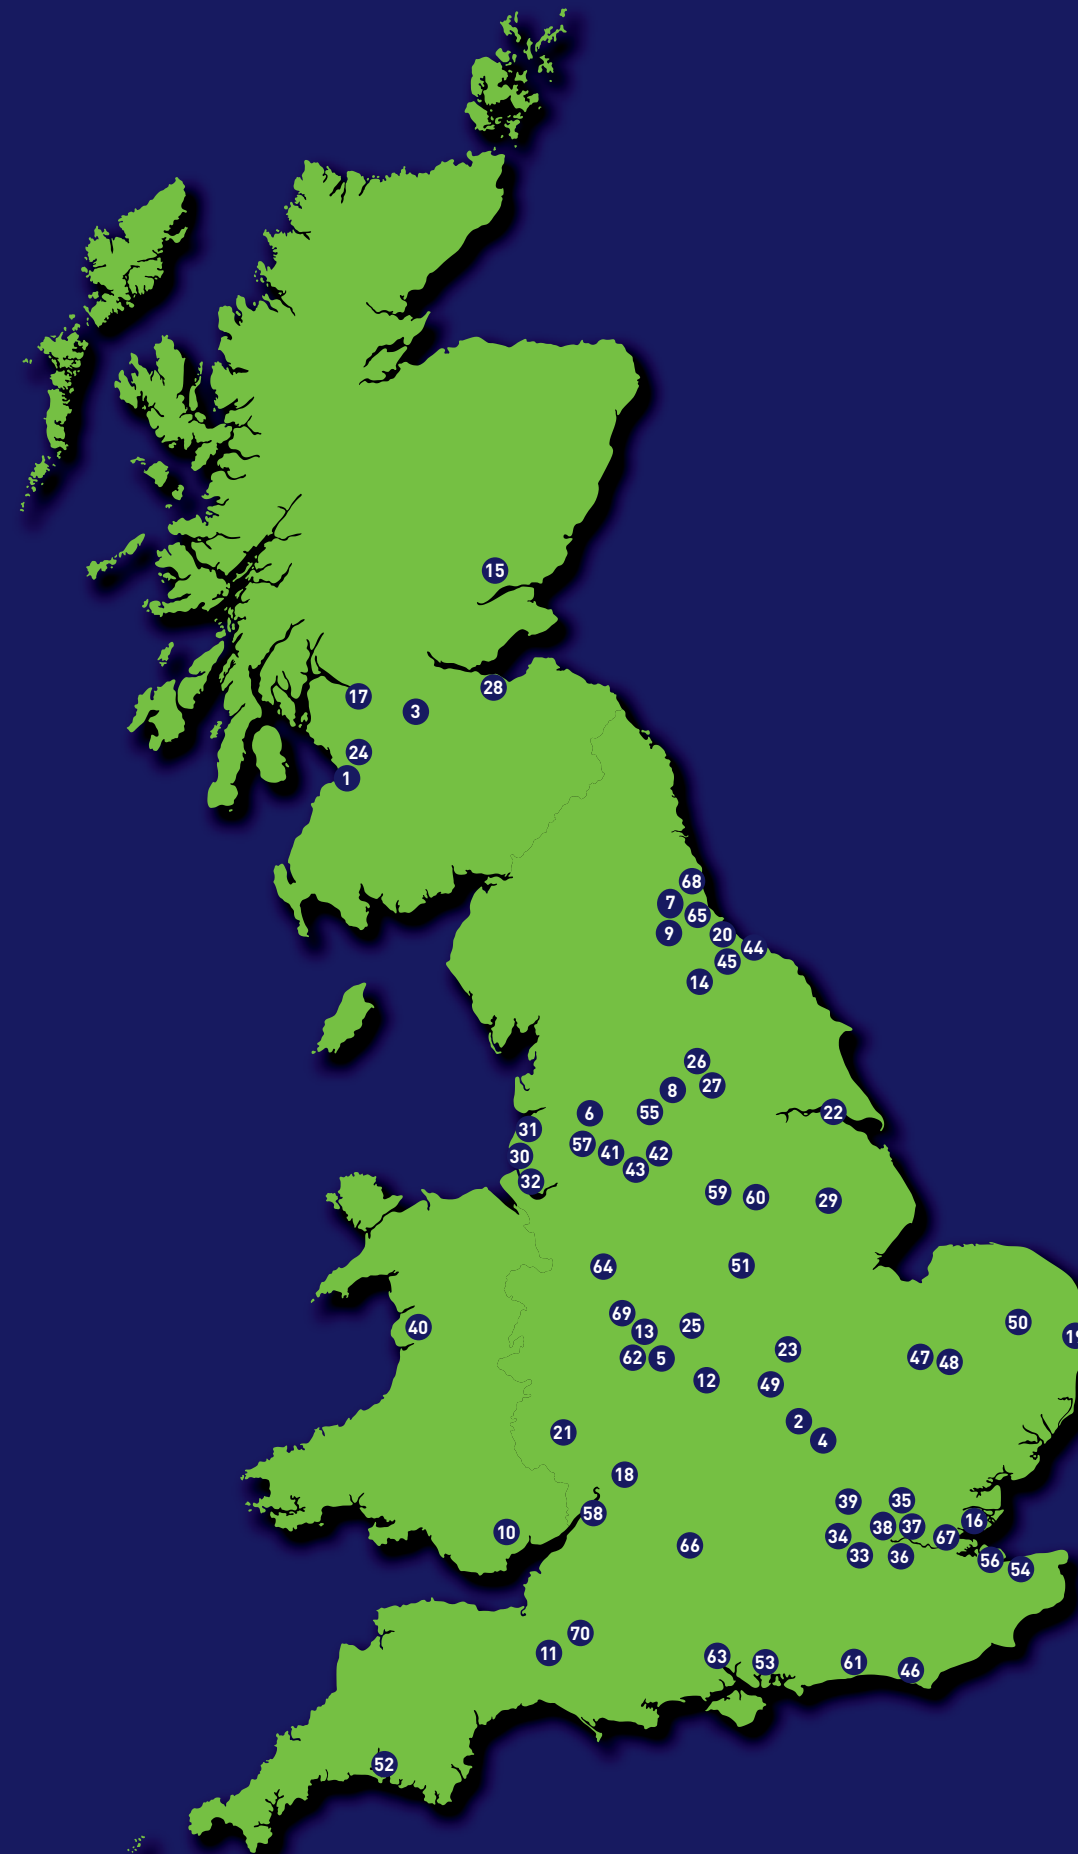

We have thousands of purpose built containers and can station whatever you need at your site. We also have a huge fleet of dedicated vehicles to provide you with a reliable service, along with an extensive rail network.

**Specialist Divisions:**

- Steels supply
- Total waste management
- Manufacturing industry services
- Fridge recycling
- Waste Electrical and Electronic Equipment (WEEE) recycling
- Packaging Recovery Notes (PRN) trading
- Environmental consultancy
- Vehicle depollution and recycling
- Dense media separation
- Shredding
- Mobile baling
- Demolition site services
- Local authority contracts
- Shipping and stevedoring
